The test results show that this device meets the FCC rules. Those limits are set to protect residential areas from the devices with harmful emission. This device will produce, use and radiate radio frequency energy. In addition, failure to follow the user's manual to install or use this device might produce harmful interference with radio communication. Notwithstanding the foregoing, it does not guarantee that this type of harmful interference does not occur in some special installations. The interference caused by this device to the reception of radio or television signals may be verified by turning it on and off. Any changes or modifications to this TFT LCD would void the user's authority to operate this device.

Important Recycle Instructions:

 LCD lamps inside this product may contain mercury. This product may contain other electronic waste that can be hazardous if not disposed of properly. Recycle or dispose in accordance with local, state, or federal Laws. For more information, contact the Electronic Industries Alliance at WWW.EIAE.ORG. For lamp specific disposal information check WWW.LAMPRECYCLE.ORG.

Usage Notice

Warning - To prevent the risk of fire or shock hazards, do not expose this product to rain or moisture.

Warning - Please do not open or disassemble the product as this may cause electric shock.

Precautions

Follow all warnings, precautions and maintenance as recommended in this user's manual to maximize the life of your unit.

Do:

- Turn off the product before cleaning.
- Touch screen surface may be cleaned using a soft clean cloth moistened with mild window glass commercial cleaners or 50/50 mixture of water and isopropyl alcohol.
- Use a soft cloth moistened with mild detergent to clean the display housing.

Don't:

- Do not touch the LCD Display screen surface with sharp or hard objects.
- Do not use abrasive cleaners.
- Do not operate the product under the following conditions:
 - Extremely hot, cold or humid environment.
 - Areas susceptible to excessive dust and dirt.
 - Near any appliance generating a strong magnetic field.
 - In direct sunlight.

Introduction

About K32A Series

The K32A Series is a 31.5" flat panel screen with an active matrix, thin-film transistor (TFT) liquid crystal display (LCD).

Features include:

- Direct Analog signal input
- Direct Digital signal input
- Active matrix TFT LCD technology
- 1920 x 1080 resolution
- 31.5" viewable display area - 16:9 aspect ratio
- 31.47 ~ 67.5 KHz horizontal scan
- 47 ~ 63 Hz high refresh rate
- 0.36375mm x 0.36375mm pixel pitch
- Auto adjustment function
- Multilingual OSD user control
- 400mm x 200mm VESA mount
- K32A Series - Projected Capacitive touch screen with USB controller
- Audio - 8W x 2

Touch Screen for K32A Series

- Project Capacitive touch screen for finger input only
- Surface: Clear glass
- Interface: USB controller
- HID Multi-Touch: Windows 7

VESA Mount for Your Monitor

This monitor conforms to the VESA Flat Panel Mounting Physical Mounting Interface standard which defines a physical mounting interface for flat panel monitors, and corresponding with the standards of flat panel monitor mounting devices, such as wall and table arms. The VESA mounting interface is located on the back of your monitor.

To mount the monitor on a UL certified swing arm or other mounting fixture, follow the instructions included with the mounting fixture to be used.

⚠ Warning!

Please select the proper screws!

The distance between the back cover surface and the bottom of the screw hole is 8 mm. Please use four M6 screws diameter with proper length to mount your monitor.

Please note: the mounting stand must be able to support at least 44.1 lbs (20Kg).

Connecting the Display (Figure 7.1)

To setup this display, please refer to the following figure and procedures.

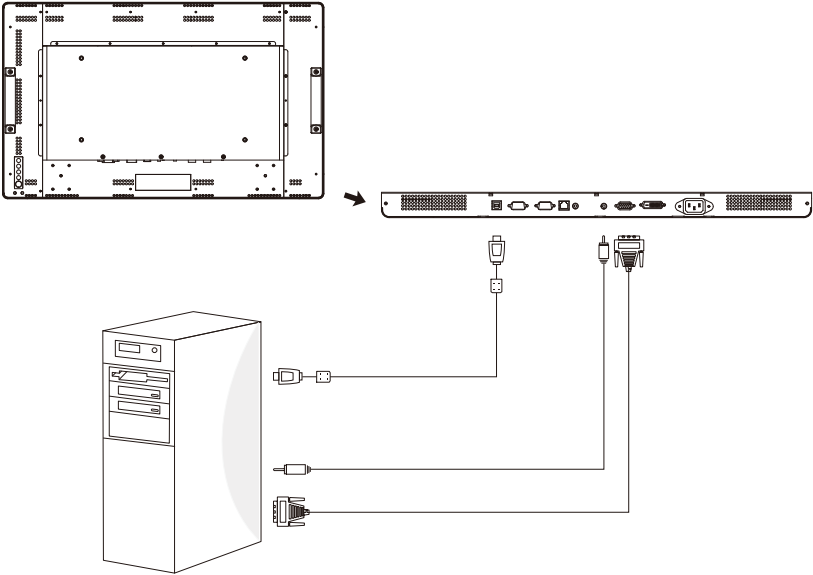

1. Be sure all equipment is turned off.
2. Connect the AC power cord to the power connector on the monitor and the other end into an electrical outlet (7.1).
3. Connect the D-SUB or DVI cable from the display's VGA input connector to the D-SUB or DVI connector of your host computer and tighten the screws (7.1).
4. Connect the Audio-In cable from the audio input port of your display to the Audio-out port of your computer (7.1).
5. Connect the USB cable from USB port of your display to USB port of your computer (7.1).
6. Once the touch screen is configured, the monitor is ready for use.

Notice!

To ensure the LCD display works well with your computer, please configure the display mode of your graphics card to make it less than or equal to 1920 x 1080 resolution and make sure the timing of the display mode is compatible with the LCD display.

We have listed the compatible "Video Modes" of your LCD display in the appendix (on page 14) for your reference.

Volume	Audio volume adjustment.
Mute	Audio On/Off control.

Appendix

Troubleshooting

If you are experiencing trouble with the LCD display, refer to the following. If the problem persists, please contact your local dealer or our service center.

Problem: No image appears on screen.

- ▶ Check that all the I/O and power connectors are correctly and well connected as described in the “Installation” section.
- ▶ Make sure the pins of the connectors are not crooked or broken.

Problem: Partial image or incorrectly displayed image.

- ▶ Check to see if the resolution of your computer is higher than that of the LCD display.
- ▶ Reconfigure the resolution of your computer to make it less than or equal to 1920 x 1080.

Problem: Image has vertical flickering line bars.

- ▶ Use “Fine” to make an adjustment.
- ▶ Check and reconfigure the display mode of the vertical refresh rate of your graphic card to make it compatible with the LCD display.

Problem: Image is unstable and flickering

- ▶ Use “Fine” to make an adjustment.

Problem: Image is scrolling

- ▶ Check and make sure the VGA signal cable (or adapter) is securely connected.
- ▶ Check and reconfigure the display mode of the vertical refresh rate of your graphics card to make it compatible with the LCD display.

Problem: Vague image (characters and graphics)

- ▶ Use “Fine” to make an adjustment. If this problem still exists, use “Horizontal size” to make an adjustment.

Warning Signal

If you see warning messages on your LCD screen, this means that the LCD display cannot receive a clean signal from the computer graphics card.

Below are the three kinds of Warning Signal. Please check the cable connections or contact your local dealer or our service center for more information.

No Signal

This message means that the LCD display has been powered on but it cannot receive any signal from the computer graphics card. Check all the power switches, power cables, and VGA/DVI signal cable.

Going to Sleep

The LCD display is under the power saving mode. In addition, the LCD display will enter power saving mode when experiencing a sudden signal disconnecting problem.

The monitor can be activated by pressing any keyboard, triggering the mouse or touching the screen.

Out of Range

This message means that the signal of the computer graphic card is not compatible with the LCD display. When the signal is not included in the "Video Modes" list we have listed in the Appendices of this manual, the LCD monitor will display this message.

Touch Screen Driver Installation

The K32A Series is available with USB connection.

Please Note:

1. The K32A Series is Microsoft Windows® HID (Human Interface Device) compatible if you use the USB touch screen interface. No additional software driver is required for general operation of the touch screen.
2. This K32A Series touch display is compatible with Win 7 only.
3. When using K32A Series touch display for the first time or switching from monitor to PC. Please execute calibration tool, and do not touch the screen during executing calibration tool.
4. Microsoft Windows® 7 operating system requires 15 seconds to recognize the K32A Series after connecting the USB cable and power cable.

K32A Optional Calibration Tool Install:

If you would like to use the Optional Calibration Tool, follow the instructions.

1. Please go www.touchrev.com to download calibration tool.
2. Select size - 32"
3. Select model - K32A Series
4. Run or save calibration
